Education

École Polytechnique Fédérale de Lausanne (EPFL)

Master of Science, Computer Science
GPA: 5.80 / 6.00

(Expected) Sep 2018 - Jul 2021
Lausanne, Switzerland

- Courses: Neural Networks, Machine Learning, Natural Language Processing, Data Analysis, Data Visualization

Bilkent University

Bachelor of Science, Electrical and Electronics Engineering
GPA: 3.79 / 4.00 (*summa cum laude*) | Graduation ranking: 13 / 120

Sep 2014 - Jun 2018
Ankara, Turkey

- Courses: Algorithms, Data Structures, Machine Learning, Neural Networks, Statistical Learning, Data Analysis
- Awarded 50% scholarship for ranking 1976/2,000,000 in the Undergraduate Placement Examination.

Experience

Accenture Labs

Artificial Intelligence Research Intern

Aug 2019 - Jan 2020
Dublin, Ireland

- Working on improving Accenture's open source knowledge graph embedding library AmpliGraph.

EPFL Laboratory for Information and Inference Systems

Research Assistant

Feb 2019 - Jun 2019
Lausanne, Switzerland

- Implemented a novel exploration method for deep reinforcement learning algorithms using TensorFlow.
- Co-authored a paper that was accepted to the OptRL workshop at NeurIPS 2019.

Bilkent University Learning and Data Science Group

Research Assistant

Sep 2017 - Jan 2018
Ankara, Turkey

- Built a Python framework for the offline evaluation of multi-armed bandit algorithms.
- Modified the SQL code of a medical dataset simulator to generate data to train three different bandit models.

ETH Zurich Computer Vision Laboratory

Research Assistant

Jun 2017 - Sep 2017
Zurich, Switzerland

- Implemented a neural network in MATLAB to perform semantic segmentation on magnetic resonance images.
- Added four new features to the modeling platform ArtiSynth by integrating my code into the large Java codebase.

Huawei Turkey Research & Development Center

Software Development Intern

Jun 2016 - Jul 2016
Istanbul, Turkey

- Collected live tweets using Java and predicted the response time of a Twitter account to new tweets using Weka.

Projects

See more at dogatekin.github.io!

Evolving Dots: A visual demonstration of an evolutionary algorithm programmed in Processing. Dots act as a population learning to avoid obstacles by evolution. [🔗](#)

Spotify Quiz: A web application that creates music quizzes with realtime playback from your own public Spotify playlists using JavaScript. [🔗](#)

Judging Books by Their Covers: A data analysis project done in Python where we investigated whether the visual features of book covers affect their sales. [🔗](#)

Stanford Natural Capital Visualization: An interactive dashboard made in JavaScript that gives the user insights about the project's training program. [🔗](#)

Skills

Programming: Python, Java, JavaScript, MATLAB, C++, SQL, R, Scala

Languages: Turkish - Native, English - C2 (TOEFL iBT: 119/120), French - A1

Extracurricular

Bilkent University Engineering Society

Vice President of the Executive Board

Jun 2015 - Jun 2016
Ankara, Turkey

- Held weekly meetings with over 100 members, managed a ₺150.000 budget and organized career/social events.
